

TRADE ADJUSTMENT ASSISTANCE PROGRAM

FEDERAL FUNDING IS AVAILABLE FOR COMPANIES EXPERIENCING LOST BUSINESS DUE TO IMPORT COMPETITION.

Tyco Electronics, as a service to our customers is providing information about this Federal Funding Program and how it may help you be more competitive.

There are regionally located Trade Adjustment Assistance Centers throughout the United States available to determine your eligibility, come on site to help you develop an adjustment plan and layout recommended turn around projects for your company.

These projects could include, for example:

ISO Preparation and Registration
Quality Assurance
Operations Analysis
Productivity Improvement
Work Methods and Standards
(i.e. A-620 Standards Training)
Facility & Equipment Review
Statistical Process Control

Selection and Layout
Process Engineering
Comprehensive Maintenance
Contracts

AND MORE...

Your company can qualify for funding to be used for training as well as comprehensive maintenance contracts.

Your Regional TAAC Office is your advocate in assisting you in obtaining funding. The funding is on a 50/50 basis.

If you're interested in learning more about this program, please contact your local Field Engineer or call Joe Porter at 717-810-3932 or e-mail to jgporter@tycoelectronics.com
