

MOST™ Measuring Device **For the Position of the Prepared Ends of Plastic Optical Fibres**

Features:

- Accurate and error-free read out.
- Zeroing possible at any position by depressing the reset button.
- Simple and fast measurement.
- Interface for data link
- Device available for both male and female inserts.
- Integrated battery compartment
- Special probe tips
- Setting Gauge

Compatible Tyco Electronics Products

MOST™ Plastic Optical Fibre connectors.

This device measures extremely accurately the position of the prepared end of the optical fibres relative to the reference point of the insert. The result is displayed clearly by means of the digital read out.

The digital display can be zeroed by means of the setting gauge.

The device is suitable for measuring the position of the prepared end of the optical fibres in both plastic as well as metal inserts.

About Tyco Electronics

Tyco Electronics is one of the major business units of Tyco International Ltd.

Headquartered in Harrisburg, Pennsylvania, USA, Tyco Electronics is the world's largest passive electronic components manufacturer, and a world leader in cutting-edge wireless technologies, fiber optic active components, and complete power systems.
