

# CT15 TSK Cable Tester

## Features

- Continuity and short circuit testing
- Resistance testing, testing of diodes and capacitors
- Programme creation from qualified sample (Autoprogram)
- Pin number function
- USB interface data transfer to PC
- Programme creation on CS WIN [CS WIN License required]
- 7 freely programmable I/Os
- Extended range of power source to 200 mA

## Technical Data

Test current: 1  $\mu$ A to 20 mA  
 Test voltage: 0-10 V  
 Continuity testing: 10 Ohm to 1 MOhm  
 Accuracy of measurement 5%  
 Short circuit testing: 10 Ohm to 1 MOhm  
 Resistance measurement: 10 Ohm to 1 MOhm, Accuracy 2% resp.  $\pm$  2 Ohm  
 Capacitance measurement: 10 nF to 1 mF, Accuracy >10%  $\pm$ 10 nF  
 Testing of diodes: (Zener, Si, Ge) up to 11 V  
 Digital Output DO: max. 300 mA  
 Weight: 3.5 kg (including 1 test point card)  
 Dimensions [mm]:  
 W x H x D = 260 x 120 x 220

## Standard Equipment on the back wall

USB, serial port, parallel port  
 Keyboard, Mouse  
 Slots for 3 test point cards internally, up to 384 test points

Designed especially for the electrical test of wire harnesses this entry level cable tester from TSK sets standards in technology and price.

The large graphic display and the ergonomic keypad enable easy handling for both operator and setter.

The logical software structure enables simple and easy operation and programming.

A programme can be created at the tester directly or via a connected PC with the CS WIN Software.

The CT15 cable tester is fully compatible with CT20 and CT30 testers.
