These MOST™ Sets are simple and inexpensive solutions for repair work in the workshop.

To meet your requirements we offer several different versions of MOST™ Sets.

The repair set in basic version contains the two dedicated tools and an additional cutting tool.

A second version contains some additional accessories, such as a spare cutting unit, 20 meters POF, 100 male and female contacts and 50 one position inline couplings.

Other accessories are available in different equipment versions.
