

Hand Tools for PIDG & PLASTI-GRIP Contacts

GLOBAL APPLICATION TOOLING DIVISION

Tyco Electronics offers a comprehensive range of professional Hand Tools, each with different features and characteristics for use in a wide range of PIDG and PLASTI-GRIP product applications. The shown tools are most used in the industry but the tool palette is by no means comprehensive.

Ensure you find the right tool for your application by visiting www.tooling.tycoelectronics.com/europe/HandTool.stm where you can reference tools to terminal part number.

PN 46121
