

LPC Stripper Crimper with Touch Sensor

Features

- Modular Open Design
- Fast and simple tool kit changes
- Fast Changeover Times
- Daniels crimp tool (MIL Standard)
- Variety of tool kits
- Touch Sensor System
- Wire Sizes from 0.14 - 2.5 mm
- Insulation Diameter 0.35 - 2.5 mm
- Jacket Strip Length 30 mm
- Strip Length 2.0 – 10 mm

Technical Data

- Electric power supply: 115 V / 230 V
- Compressed air 500-700 kPa
- Cycle time: 2.5 Seconds
- Weight: Approx. 60 kg
- Dimensions machine [mm]
W x H x D = 530 x 620 x 800

The LPC machine is suitable for stripping and crimping loose piece contacts to accepted MIL specifications with 4/8 indent crimp form.

The machine feeds, sorts and separates the contacts prior to the stripping and crimping process.

A variety of contact specific tool kits is available or can be created to suit almost all screw machined contacts.

The machine is easy to operate and can be changed from one contact to another quickly and easily.

The Touch Sensor is a safety system designed to monitor when the stripping blades contact the conductor during insulation stripping.

If the blades make contact with the conductor then the machine will not crimp the contact.

The system allows for partial or full monitoring or can be turned off completely. The Touch Sensor system is particularly useful when stripping wires where a non-contact situation is required.
